ACKNOWLEDGEMENTS

This collection is a result of collaboration between the Institute for Social and Economic Studies (IESE) and the Business Environment Fund (FAN) and aims to transform the results of the research that has been carried out by the IESE in order to promote public-policy debate related to the development of productive capacities and business in Mozambique. The editors of this collection would like to thank the authors of the papers and the FAN team and its partners for their valuable and critical contributions and for the suggestions. Acknowledgement is also extended to business associations, the Confederation of Business Associations (CTA), unions, the media, and all who contributed to the production and diffusion of, and debate on, the selected topics. In particular, we would like to thank the following IESE partners for their continuing institutional support: the Swiss Agency for Development and Cooperation (SDC), the Royal Danish Embassy, the Ministry for Foreign Affairs of Finland, the Irish Department of Foreign Affairs (Irish Cooperation), IBIS Mozambique, and the Embassy of Sweden. Furthermore, this collaboration project was undertaken with the financial assistance of FAN.
